

# Tactile Books for Children

in the Helen Crocker Russell Library of Horticulture

[sfbg.org/library](http://sfbg.org/library)

---

**Why tactile books?** Books with tactile elements offer hands-on learning, appeal to a diversity of learning styles, and can be particularly beneficial for children with impaired vision.

Tactile books include elements such as Braille, pop-ups, cut-outs, textured material, lift-the-flaps, and finger puppets. They're also just plain fun for all young learners!

---

**Animals : Knowledge You Can Touch.** Star, Fleur. New York, NY : DK Publishing, 2016.

Designed especially for the young braille reader, this tactile reference book features a fascinating selection of creatures, from bears and big cats to birds and bugs. Every entry is written in both braille and large print to allow all readers the opportunity to discover fascinating facts about animals. The entries are also illustrated with large, tactile images, including a leopard with fuzzy flopped fur. Advanced readers. (j) QL151 .A54 2016

**Naturescapes : a Three-dimensional Field Guide to Woods, Forests, Meadows, & Marshes.**

Felts, Shirley. New York : Viking Kestrel, c1988.

Text and pop-up illustrations present information on deciduous and coniferous forests, grasslands, ponds, and marshes, and the plant and animal life which such natural communities can support. Early readers. (j) QH48 .F348 1988

**Little Honey Bee.** Ormes, Jane. Somerville, Mass. : Big Picture Press, 2016.

Follow a garden's journey from spring to summer in this beautiful counting book with lift-the-flap board pages.
