

Celebrate Nature's Elegance: The Magnolia Collection

The Gardens of Golden Gate Park is proud to cultivate one of the most spectacular magnolia collections in the United States, a symbol of timeless beauty and resilience. From late January through the start of spring, the magnolia blooms create a breathtaking experience for all who visit San Francisco Botanical Garden. The collection boasting more than 200 trees, with their bold blossoms and vibrant fragrance, is a living testament to the importance of conservation and biodiversity.

To ensure the continued health, expansion, and enjoyment of this collection, we invite you to join or renew your membership in the Leadership Circle this season.
